COMMUNICATION

As a student worker, I have acquired skills of communication and customer service. As well as handling phone operations, greeting and escorting visitors, decision making and time management.

As a member of Urban Ent., I am able to create content and advertise using my media skills. Along with advertising, I market to large audiences and inform them of up-coming events.

In Sandbox, I am able to use my leadership skills to invoke creative projects and to participate while using a range of skills, along with photography and writing.
